NOTES TO FINANCIAL STATEMENTS

NOTE 1

Summary of Significant Accounting Policies

Summary of Significant Accounting Policies

Accounting Practices

The financial statements of Sparrow PHP are presented on the basis of accounting practices prescribed or permitted by the Michigan Department of Insurance and Financial Services (DIFS). Effective December 31, 2015 Sparrow PHP sold 100 percent of membership to an unaffiliated health plan. The commissioner of DIFS approved the merger of Sparrow PHP into Physicians Health Plan effective April 1, 2017.

DIFS recognizes only statutory accounting practices prescribed or permitted by the state of Michigan for determining and reporting the financial condition and results of operations of an insurance company. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual*, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Michigan.

A reconciliation of Sparrow PHP's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Michigan is shown below:

B. Use of Estimates

In preparing the financial statements in conformity with the NAIC Annual Statement Instructions and Accounting Practices and Procedures Manual, management makes estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

11. Estimating the liabilities for losses and loss/claim adjustment expenses: Estimates on unpaid losses are based upon the plan's past experience, individual case estimates and an estimate for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined. Loss/claim adjustment expenses related to claims are accrued based on estimates of expenses to process those claims.
12. Sparrow PHP has not modified its capitalization from the prior period.
13. Estimating pharmaceutical rebate receivables: Estimates on pharmaceutical rebate receivables are based on historical per member data for periods in which the rebates have been substantially received. This estimate is applied to periods in which future balances are expected, reduced by receipts to-date.

STATEMENT AS OF MARCH 31, 2017 OF THE SPARROW PHP

D. Going Concern
The principle conditions of our current environment that would raise doubt as to the ability of the plan to continue as a going concern would include the wind down of the Sparrow PHP subsequent to the loss of membership as of December 31, 2015. While potentially significant, Management has developed plans to alleviate the potential for going concern gaining approval for the merger of Sparrow PHP into Physicians Health Plan during the year ended December 31, 2017.

Fair Value Measurement

- A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value
(1) Items Measured at Fair Value by Levels 1, 2 and 3

The Company has categorized its assets and liabilities that are reported on the balance sheet at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows:

Level 1 - Quoted Prices in Active Markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, includes exchange-traded common stocks and mutual funds. The estimated fair value of the equity securities within this category are based on quoted prices in active markets and are therefore classified as Level 1.

Level 2 - Significant Other Observable Inputs: This category, for items measured at fair value on a recurring basis, includes bonds which are not exchange traded and common stock of a subsidiary which is valued using an adjusted market method. The estimated fair values of some of these bonds were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered actively traded. The Company has no Level 2 assets or liabilities.

STATEMENT AS OF MARCH 31, 2017 OF THE SPARROW PHP

Level 3 - Significant Unobservable Inputs: The Company has no Level 3 assets or liabilities.

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Total
a. Assets at fair value				
Mutual Funds 6,362,712 6,362,712
Short-Term Investments 6,238,651 6,238,651
Total assets at fair value	. 12,601,363 0 0	.. 12,601,363

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred between Levels 1 and 2. This policy also applies to transfers into or out of Level 3 as stated in paragraph 3 below.

No transfers between Levels 1 and 2 occurred during the current year.

(2) Roll forward of Level 3 Items

The Company has no assets or liabilities measured at fair value in the Level 3 category.

(3) Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. During the current year, no transfers into or out of Level 3 were required.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

The Company has no assets or liabilities measured at fair value in the Level 2 or 3 categories.

(5) Derivative Fair Values

Change in Incurred Claims and Claim Adjustment Expenses

Reserves as of December 31, 2016 were \$50,000. As of March 31, 2017, \$17,539 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$50,000 as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been unfavorable prior-year development of approximately \$17,539 since December 31, 2016 to March 31, 2017. The increase is generally the result of ongoing analysis of recent loss development trends. Original estimates increase or decrease, as additional information becomes known regarding individual claims.
